A CHURCH WITHOUT A HOME, -About s'x rears ago, by reason of circumstances familiar all the readers of the Gazotte, a large body professing Unristians, numbering some sixty amilias of the Presbyterian way of thinking, out i themselves without a house in which to corship as a body. The First Presbyterian thurch, ones a strong and prosperous organimere handful of people, occapied a large (difire, which was saily out of repair, on South Fairlax street. This church, the pulpit of which had been occupied by Dr. Harrison and ther metinguished ministers, was seldom filled. and the clamon notes of the gospel trumpet were early heard by the Isithful few who senck by ine ald church they loved.

PULVERIZED ARROW ROOT received to day by [sep2] J. C. MILBURN.

Foundering of a Steamship. New York, Sept. 3,-A special from St. August, Fis., gives the following: There is very little doubt that the steamer city of Vera Cruz, of the Mexican line, which railed from New York on the 25th of August for Havana and Vers Cruz, went down in the recent burriesne which has already strewn our coast with wrecks. Only the faintest hopes remain that any of her passergers have survived. This terrible dis covery was made here yesterday, when pertions of the mail carried by the ill fated vessel were washed ashore some miles south of this city. One mail bag contained letters for Cuba and Mexico which had been posted in l'aris,

France, on August 13, and another lot was found with the envelopes bearing the postmark "New York, Ang. 25." This at once indicated that the lost vessel was a mail steamer, bound for Southern ports, and the surmise was that it must have been the City of Vera Crez, as she left New York on the day last named.

A special to an evening paper from St. Augustine, Fla., says of the supposed wreck of the Vera Cruz: Thus far six bodies have been washed ashore, together with a large amount of miscellaneous merchandise. One of the bodies was that of a middle aged lady but there was nothing about her that would lead to her identification. Another body was that of a child, four years old, name not known, but probably Welsh, as they were the only family that had a child with them. The others were sailers with the exception of one who was dressed like a well to do businest man. He looks like a Spaniard.

It is toured that the terrific gale that has raged here for the pist week made it impossi-ble for any of these on heard the ill fated steamer to save themselves even were they able t

The shore for miles is alrown with pieces of timber, box ss, barrels, and other debris. Wreck ing parties have been organized and overything

ing parties have been erganized and overything of value is being stored in a storehouse on Main street.

A telegram received at the postoffice to day, says that letters in the mail washed ashore on the Florida Coast, are pest marked "New York, Aug. 25." and "Paris, Aug. 13." This indicates that the mail arrived here by the Batavia from Liverpool, and was dispatched by the City of Vera Cruz. At the office of the Alexandre of the business portion of the city lior, at noon to-day, no further information as to the reported loss of the City of Vera Cruz has been received, though an answer to a dispatch to St. Augustice, Fla., asking for details is momentarily expected. Some do not believe the steamer is los; but think that she encountered a hurricane, during which the mail and baggage went overboard. She is prenounced one of the strongest steamers in the world.

The Accident on the River Ebro. NEW YORK, Sept. 3.- A special from Paris cives the following particulars of the accident on the river Ebro: Logrous is a beautiful town built on the right back of the Ebro, where the river is deep. A regiment of the line was crossing a postoon bridge, the band playing gaily when the bridge kave way, carrying icto the river more than one hundred men and officers. The scene that fellowed was of indescribable borrer. The pania stricken seldiers on shore were unable to assist their drowning comrades who were eligging to the debits of the bridge, The result was that most of them sank, all being in matching attire armed with Remington rifles and supply cartridges. The authorities precured bosts and had the river dragged with nets and hooks. The search was prolonged by the aid of torches until late in the night. The bodies of 5 officers and 70 men have been recovcred and others have been found by villagers lower down the river where they were carried by the stream. The ponteen bridge had been erce ed to enable passengers to cross the river while the stone bridge was being repaired and had been prenouseed safe by orgineers. Seven y bine persons to all are known to have been drawned. It is leared the full extent of the less of it's has not yet been ascertained.
